Tuesday, Wednesday, Thursday
9:00 - 11:00 AM

We thank our faithful volunteers:

Joyce & Vic Stucky
Craig Hague
Lloyd Smith

for looking after the coffee stop
each week. Busses at Coffee stop below.

Christmas Greeting

It is the festive season again and that marks the end of another year. Over the past year we have made steady progress in the administration of the Society and restoration of the elevator complex.

The major project this past year was the Feed Shed. Further restoration was completed on the roof, walls, and the floor. If you haven't seen the new floor you must stop by and have a look. We owe a great deal of gratitude to two dedicated members namely Jim Andersen and Craig Hague. They spent literally hundreds of hours on their hands and knees installing, filling, sanding, and finishing the beautiful floor. We plan to use the feed shed for the coffee stop in the summer time when the weather permits and to make it available to the public on a limited basis depending on request and purpose. We are also looking for ideas on displays that may be set up in the Feed Shed that would add interest to our visitors as they tour the elevator complex. Other projects included finishing the east wall of the feed mill, insulating the attic of the office and other repairs.

For the upcoming Alberta Prairie season we are looking for ways to attract those visitors to our elevator. We are open to ideas and suggestions but recognize we will need more volunteers to carry out these added activities.
